

RELATES TO ITEM 4

AMENDMENT BY SUPERVISOR DON KNABE

January 27, 2015

The proposed Historic Preservation Ordinance that was vetted through the public hearing process by the county staff was intended to apply only to privately-owned structures and property on private land, not to privately-owned structures on public land. With the amendment offered by Supervisor Ridley-Thomas, I would like to clarify and ensure that the ordinance would apply to privately-owned structures and property on County land (such as in Marina del Rey) only through a process where the government (County) as landowner can apply.

**I, THEREFORE MOVE** that the Board of Supervisors:

1. Clarify and amend that in item 2(a) of the Ridley-Thomas Amendment that the term "County-owned properties" includes private property on County-owned land and that the designation process be limited to the government entity (County) as applicant, and instruct County Counsel to provide that clarification and amendment in the final ordinance to the Board.
